

Sinclair Broadcasting is geared up to clearly break the spirit of the laws governing the ownership of the airwaves by the public. As public servants, you are obligated to do all you can to keep Sinclair from forcing their stations to air an anti-Kerry documentary days before the election. It is a clear example of violating the campaign laws and even more of an example of the dangers of media consolidation.

I beg you to do all in your power to stop this abuse of power, and if nothing else, deny Sinclair's request for renewal of their license. Show that you are not also one more aspect of this greedy country being controlled by big business, PLEASE.
Sincerely and most urgently, Elizabeth B. Pritchard
